

Dear Member:

Better Health is happy to tell you about a great diabetes program. This program will help you to get your diabetes supplies. It will also help you learn how to control your diabetes. This program is ***Neighborhood Diabetes***.

You need to order your diabetic supplies (blood sugar meter or glucometer, strips, lancets, insulin pumps, syringes, etc.) from ***Neighborhood Diabetes***.

They will deliver your diabetic supplies and give you information about your diabetes. They will also show you how to test your blood sugar, how to eat healthy, and how to avoid the health problems that can happen with diabetes. This teaching will be done at least once in your home and with phone calls to follow-up, as needed.

This Program is absolutely FREE to our Better Health members. All you need to do is call ***Neighborhood Diabetes*** toll-free at 1-866-784-5647. Please have your Better Health ID card and the name and phone number of your doctor ready when you call.

Once again, ***Neighborhood Diabetes*** is our only supplier for all of your blood sugar meter or glucometer, strips, lancets, insulin pumps, syringes, etc.

Please call them before you run out of your supplies. If they do not hear from you in the next ten days, ***Neighborhood Diabetes*** will call you. If you use insulin or take medicine for diabetes you need to keep getting them from your pharmacy.

If you are new to Better Health and you need supplies in a hurry, you may get supplies for the first 60 days at your pharmacy. Then you will order from Neighborhood Diabetes before you run out.

Thank you for being a Better Health member. We think you will like this program and that it will help you to live a healthier life!

Sincerely,

Your Case Management Team
Better Health
